

Gasket sheet AF-152 typ 210

Application:

Sheet for applications in systems of low parameters. Owing to specially selected components, it is characterized by a highly economical use. It is recommended mainly for heating, water pipe and sewerage systems.

TECHNICAL PARAMETERS:

| | |
|--|--|
| Standards satisfied and approvals | |
| Classification per DIN 28091-2 | FA-MN13-0 |
| Basis | aramid and mineral fibers, mix of caoutchoucs: NR, SBR i NBR |
| Density | 1,8 |
| Maximal operating conditions: | |
| Peak temperature | 180°C |
| Continous temperature | 150°C |
| Continous temperature in steam Pressure | 130°C 3 MPa |
