

Gasket sheet AF-CD typ 223

Application:

The sheet is built of high quality natural fibres, bounded with NBR. It is recommended mainly for heating systems, both hot and cold water pipe systems, sewerage systems and industrial water circuits. It has been given the approval for use in the food industry and potable water systems.

TECHNICAL PARAMETERS:

Standars satisfied and approvals	PZH
Classification per DIN 28091-2	FA-N1-0
Basis	NBR caouchouc, natural fibers
Density	1,8
Maximal operating conditions:	
Peak temperature	200 ⁰ C
Continous temperature	160 ⁰ C
Continous temperature in steam	140 ⁰ C
Pressure	8 MPa
