

Gasket sheet AF-SOFT typ 213

Application:

Flexible sheet for application in systems of low parameters. It's especially recommended for heating, water pipe and sewage systems. It keeps tightness even by low mounting pressures. .

TECHNICAL PARAMETERS:

Standards satisfied and approvals	
Classification per DIN 28091-2	FA-N3-0
Basis	natural and mineral fibers, mix of caoutchoucs
Density	1,8
Maximal operating conditions:	
Peak temperature	180°C
Continous temperature	155°C
Continous temperature in steam Pressure	130°C
	4 MPa
