

Packing 6086 Zebra

Packing braided of graphite filled PTFE-yarn and aramide-yarn. Thanks to its special braid the aramide fibres evenly reinforce the packing which results in its high mechanical resistance and low friction factor. It sets well in the stuffing box. Recommended for use in centrifugal pumps and other machines working in water conditions, hot water, saline solutions, most acids and bases, fuels, oils and solvents as well as suspended solids in these agents.

TECHNICAL PARAMETERS

	Centrifugal Pump	Reciprocating Pump	Fittings
T_{\max} °C	-200 ÷ 280		
p_{\max} bar	20	---	300
V_{\max} m/s	20	---	2
pH	0-14
